

Topic

Modern wireless positioning techniques and their integration with GNSS

Date, time & venue

2009-10-22; 7:00-8:30pm; Room 1007, 1/F, HKPC Building, Kowloon Tong

A seminar organized by the HKIES and ICES (Hong Kong Region) on a topic of Modern wireless positioning techniques and their integration with GNSS was held on 22 Oct 2009. The speaker Dr. Esmond Mok, Professor of the Department of Land Surveying and Geo-Informatics, The Hong Kong Polytechnic University, introduced the modern wireless positioning technology applications. 40 participants attended the seminar.

The seminar ended with a question-and-answer session which provided a platform for participants to exchange of some practical and special ideas.
