

### Professional Photogrammetry Standard (PPS) Training Course (2<sup>nd</sup> Intake)

**Photogrammetry** is becoming a more well recognized technology among the field of engineering survey. The Hong Kong Institution of Engineering Surveyors are proud to present an introduction course to participate to understand the theories and practical studies on this rapid recognizable technique.

#### Part A: Professional (Knowledge) - 3 hours

- Basic theory: Photogrammetry
- Code of conduct/ practice
- CAD (Civil Aviation Department) Regulation
- Operation Manual
- Safety Issue

#### Part B: Photogrammetry (Theory) - 9 hours

- Handheld devices (SmartPhone, OSMO)
- UAV devices (DJI Products)
- Flight planning
- Basic Operation
- Post processing

#### Part C: Photogrammetry (Practice)- 6 hours

- Close-range Photogrammetry
- Aerial Photogrammetry
- Case Sharing
- UAV experience day

#### Part D: Standard (Guideline) - 3 hours

- HKIES Guideline and technical specification for photogrammetry
- Record filing and achieve
- Privacy Issue (Office of the Privacy Commission for Personal Data, Hong Kong)
- Market status and development
- Commercial issue

Date	Time	Venue	Address
17, 24, June, 8, 15, 22, 29 July	7 - 10 P.M.	CIC BIM Innovation and Development Center	44 Tai Yip St, Kowloon Bay (Exit A, Kowloon Bay MTR Station)
TBC	TBC	UAV experience day (3 hours)	TBC

**Discounted price for members of HKIES and supporting organizations only. Original price (\$5,600) would be applied for others!**

- \* HKIES reserves the right to change the training content without prior notice.
- \* Total 6 lessons plus 1 field trip, with 3 hours each. Maxi. 30 seats
- \* Speakers would include professionals from the field of engineering survey.
- \* If interested, please fill in the application form and submit before 10-Jun-16.
- \* Teaching language: Chinese with English supplement.

**Discounted price!!**  
**\$4,200**
